Leadership, Innovation & Enterprise Skills

Course Plan

Introduction

In today's fast-changing business environment, organizations need leaders who can think strategically, act innovatively, and inspire enterprise. Leadership is no longer about authority alone, but about the ability to drive change, foster creativity, and enable sustainable growth. This training program equips participants with the knowledge, skills, and mindset required to lead with vision, embrace innovation, and build entrepreneurial capabilities that create a competitive edge in the global market.

Course Objectives:

- ✓ Understand and apply key leadership principles for effective team and organizational success.
- ✓ Foster a culture of innovation and creativity within their organization.
- ✓ Develop enterprise skills that support problem-solving, decision-making, and opportunity recognition.
- ✓ Apply strategic thinking tools to address complex business challenges.
- ✓ Strengthen personal leadership styles to inspire and influence others.
- ✓ Integrate leadership, innovation, and enterprise skills into sustainable organizational growth.

Who Should Attend?

- Mid-level and senior managers seeking to enhance their leadership capabilities.
- Entrepreneurs and business owners aiming to scale their enterprises.
- Innovation and R&D managers responsible for driving organizational creativity.
- Young professionals aspiring to leadership positions.
- Government officials and NGO leaders involved in enterprise development.
- Consultants, trainers, and educators interested in leadership and innovation.

Training Methods:

- ✓ Online Video material.
- ✓ Presentation.
- ✓ Live Interactive sessions.
- ✓ Course presenter will make extensive use of all tools that will be needed for the virtual environment.
- ✓ Questions & Answers
